Department of the Army
New York District Corps of Engineers
Attn Mr. J. Gelberman
Chief, Operations Division
New York, NY 10007

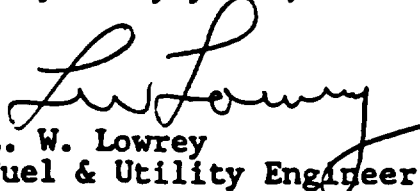

Gentlemen:

National Gypsum Company
Millington, New Jersey Plant
Permit No. 2SD-OXW-2-000570

We have Mr. Ferrazzuolo's letter of October 24, 1972 confirming the data that we gave him during our telephone conversation. This information is correct with the exception that the discharge is 70,000 gallons per day as shown on the application rather than the 7,000 gallons per day shown in the October 24 letter.

If we can be of any further assistance, please let us know.

Very truly yours,

L. W. Lowrey
Fuel & Utility Engineer
